PRODUCT DESCRIPTION

Power and protect all of your critical electronics while maintaining your internet connection during prolonged outages. The new and improved APC Back-UPS BN900M-CA keeps you connected to what matters the most by providing more runtime and battery backup outlets than ever before.

Stay connected to what matters

The APC Back-UPS BN900M-CA optimizes home and small business uninterruptible power supplies (UPS) by focusing on the most critical aspects of power protection:

More Runtime:

Power your critical electronics for longer than ever before; the BN900M-CA is capable of powering your wireless networking equipment for nearly 6 hours after safely shutting down your PC or other high powered devices.

More Battery Backup Outlets:

Power more of your critical electronics during a power outage; the BN900M-CA has enough outlets to power up to 6 devices at once. Added Convenience: Wide outlet spacing allows you to plug in bulky transformer plugs without covering other outlets.

Smaller and Lighter:

The new BN900M-CA is smaller and lighter than previous models, allowing you to easily relocate and position your UPS in any environment. Never let a power disruption interrupt your life again, with the new APC Back-UPS powering your critical electronics:

- - Check email
- - Stream movies and TV shows
- - Make phone / video calls
- - Check and update social media
- - Continue gaming

- - Maintain home automation and security systems

Perfect companion to Stealth's LittlePCs

The small size of the APC Back-UPS BN900M-CA makes it a perfect fit along side our line-up of Stealth LittlePC / Mini PC products. This small form factor APC power backup is an available option for all LittlePC models and can also be purchased separately.
