PRODUCT DESCRIPTION

The APC Smart-UPS model SMT1500RM2UNC is a 2U Rack Mount power backup featuring 3000VA capacity and equipped with a network card. APC Smart-UPS™ units support the uninterruptible power needs of your IT and equipment. This time-tested benchmark from APC™ by Schneider Electric™ protects critical data and connections from power risks by supplying clean, reliable, network-grade power.

Configurable, multi-lingual LCD display

Provides UPS status and key measures at a glance. Clear and accurate, menu-driven display for easy set-up and customization with or without software installation.

Extended-range automatic voltage regulation

Provides enhanced brownout protection, boosting incoming voltage up to 30% without using battery power.

Switched outlet group

Controlled separately from the UPS for discrete reboot of hung devices, sequenced ON/OFF, and non-critical load shedding.

Advanced battery management

Innovative, dynamic recommended battery replacement date indicator.

SmartSlot™ interface:

Accepts a wide array of accessory cards for advanced management and environmental monitoring.

Rack-mount rails

All hardware provided to securely install in your rack space.

Perfect companion to Stealth's Rackmount PCs / Servers

The APC Smart-UPS SMT1500RM2UNC is a perfect fit along side our line-up of Stealth Rack mount PC / Server products. This high performance APC power backup is an available option for all Rackmount PC

models and can also be purchased separately.
