SVPC-17 - 17" Panel PC, All-in-One LCD & Computer

All-in-One, Panel PC, Workstation
Stealth's SVPC-17 is a high performance, all-in-one, industrial Panel PC designed to support your demanding operator interface and HMI application requirements. The small footprint and panel mount chassis design allows for quick and easy installation/removal into control panels, consoles, kiosks and machines. An optional VESA mounting bracket is available for pendant and special mounting.

Environmentally Sealed to NEMA 4X/IP65
The vivid 17" SXGA LCD is protected by a rugged stainless-steel front bezel that is environmentally sealed to comply with NEMA 4X/IP65 specifications protecting your investment from damaging dust, dirt and sprayed liquids. Each and every model ships with a resistive touch screen interface for simple point and touch operation. The bright 300 nit display presents dazzling color and operates at resolutions up to 1280 x 1024 pixels.

Powerful Integrated Computing
The SVPC-17 features powerful Intel Core 2 Duo processor technology for running your demanding applications. Standard systems offer a multitude of I/O connectivity built right in. Rugged 2.5" hard drives or optional SSD are deployed for safe and secure data storage. An optional PCI expansion chassis is available for special add-in cards. All systems are compatible with Microsoft Windows 7/XP.
